

NSA Meetings

Regional Meetings of NSA members are sponsored locally in the U.S. and Canada, where informal gatherings allow people to buy, sell or trade items for collection or use. Members meet each other and see the images and equipment collected or created by people of similar interests. In addition, the annual NSA National Convention and Trade Fair attracts members from all over the world, as well as many photographica dealers, photo historians, and experts in various state-of-the-art applications of stereo imaging.

Each convention features stereo projection seminar presentations, competitive exhibitions, an auction of fine photographica, and a large sales floor packed with images and equipment both antique and modern. The convention is held in a different location in the U.S. each year, and is the high-point of the stereoscopic calendar.

Stereoscopic Society

The NSA is affiliated with the Stereoscopic Society of America. Its members are actively involved in taking stereo slides and prints, which they circulate among themselves in folios for education, constructive criticism, and pure enjoyment. Membership to the Stereoscopic Society is open to residents of the U.S. and Canada only.

Membership/Subscriptions

Membership to the NSA is open to all persons and institutions with an interest in any aspect of stereo imaging. All memberships follow the publishing year of Stereo World, which begins in March and extends to the next February with six issues and a membership directory. New memberships commence with the March/April issue of the calendar year in which the application is received.

NSA European Membership

A great number of NSA's members live outside the USA, mainly in Europe, but also in the rest of the World. If you are located in Europe and wish to become a member of the National Stereoscopic Association, there is no longer the need to pay for expensive letters to the USA, high bank charges to transfer money or intercontinental telephone calls. It's all handled by a representative of the NSA in Europe, accepting payments in Euro (€), and Pounds Sterling (£).

Explore the World of Stereo Images

With The
**National
Stereoscopic
Association**

The Association

The National Stereoscopic Association is an incorporated, non-profit, tax-exempt organization founded in 1974. Its purposes are to promote the study and collecting of stereographs, stereo cameras, and related materials; to provide a forum for collectors and students of stereoscopic history; to promote the practice of stereo photography; to encourage the use of stereoscopy in the visual arts and technology; to foster the appreciation of the stereograph as a visual historical record; and to provide for the Stereoscopic Research Library.

STEREO WORLD will introduce you to more stereo photographers, images, cameras, collectors, formats, publishers, equipment, news, theories, services, organizations, novelties, applications, books and sources than you ever imagined to exist.

Stereo World

Stereo World magazine is published bimonthly with 40 or more pages per issue. Stereo Images from a variety of eras and formats are printed as high-quality side-by-side pairs, lavishly illustrating every article. Stereo World publishes original research by noted authorities on stereo photographers, their publishing histories, the historic events and subjects they depicted, and their equipment and techniques.

Equally featured are articles of interest to today's stereo photographer and students of 3-D imaging techniques. Covered are cameras and projectors, viewers and other equipment, 3-D drawing and computer applications, View-Master information, 3-D film and video developments, and news of products or services from around the world. Stereo related books are reviewed, and upcoming photo trade shows and exhibitions are listed. Display and classified ads assist members in pursuing their stereo activities. Members are offered free classified advertising (100 free words per year, divided into three ads).

Membership fees

Membership fees mentioned in this brochure are in Euro. For those located in the United Kingdom, local payment is available in Pounds (45 £ per year). Please contact us for

payment instructions.

Quoted fees are valid until December 31st, 2020.

Please enroll me as a member of the National Stereoscopic Association. I understand that my subscription to Stereo World will begin with the March/April issue of the current year. Stereo World is sent by Air Mail.

**Membership Fee 2020: 50 EUR per year
(UK: 45 GBP)**

Payments in Euro from within the Euro-Zone:

Payment by Bank Transfer to the following Bank Account:
Alexander Klein / NSA, Account-Number 09 302 128 00
